

## **The University of Hong Kong**

### **MBS International Office Guidance:**

Regarding course enrolment, MBS has been advised by HKU that students should seek pre-approval for desired courses, prior to arrival rather than wait until the add/drop period. It is essential that students read all email correspondence and act on this immediately to ensure that you can have access to courses. Waiting until you arrive may mean that you will not be able to be registered for some of your chosen courses.

You should also act immediately on any information given to you on housing and visa application processes.
